Windows version of Siggen 8 Professional.One of the best innovations for Android users is instant messaging. In the past, this was a hassle for some people. You had to open up a software to read / send / reply to the messages, and then you had to switch between software. You could also potentially be attacked by malicious codes or worms, when you accidentally sent an email to a mass email address. Android supports all types of Instant Messaging. Not only that, you could also chat with all the Windows users too. So, as we all know, that is great, and now with the support of Google Talk, you could have a unified chat conversation with all your Android contacts. Instant messaging applications on Android have become an integral part of our lives, and we don't mind using them. A Bit Slow Google Talk is certainly good
